Windows 10 is a Microsoft operating system, designed to be run on Windows-compatible computers. Windows 10 is now the preferred Siena college Windows Operating System. New computers will come with Windows 10, teaching podiums will run Windows 10, and most public lab spaces will run Windows 10.

Quick Start: Desktop at work

- **The Start button**: In the lower-left corner, it puts what you need at your fingertips.
- **Browse every app**: Make the defaults even better. Monitors, networks, printers, and more.
- **Find files**: Use an app all the time? Pin it. Press and hold (or right-click) an app, then select Pin to Start.
- **Personalize settings**: Drag apps into groups, press and hold (or right-click) to resize, and select the title space to give the group a new or better name.
- **Turn the PC off**
