

Logging Off

The method for logging out of a Windows 10 computer is slightly different than logging out of a Windows 7 computer.

ITS has provided several easy methods for logging off.

- On the desktop of all Siena Windows 10 computers is a yellow icon with the picture of a key. It is named "Log off of this computer". Double-click it to log off.
- The Start menu.
Click your user name in the Start menu. In the drop down menu, you will see the **Sign out** command:

- Press CTRL+ALT+DEL on the keyboard while you're logged in. Choose "Sign out" and this will log you off.
